

BEFORE

RESULTS

STOPS 05 TO 07

My *transplant* day

Your surgery day, from the morning consultation to your first night at the hotel.

NAME

SURGERY DATE

DAY 0

The day, *step by step*

Your surgery starts after the consultation and takes most of the day. The team plans breaks for you.

MORNING

Consultation

Meet your doctor and talk through your goals.

Hairline design

Your hairline is drawn and agreed together in the mirror.

Blood test & consent

A blood sample and your signed consent form.

MIDDAY

Comfort set-up

Local anaesthesia, with IV sedation under the anaesthesia team's care.

Extraction

Follicles are taken from the donor area. The live counter starts.

AFTERNOON

Implantation

Grafts are placed with Picasso Robotic DHI.

Final count

Your graft number on screen, on paper and on video.

EVENING

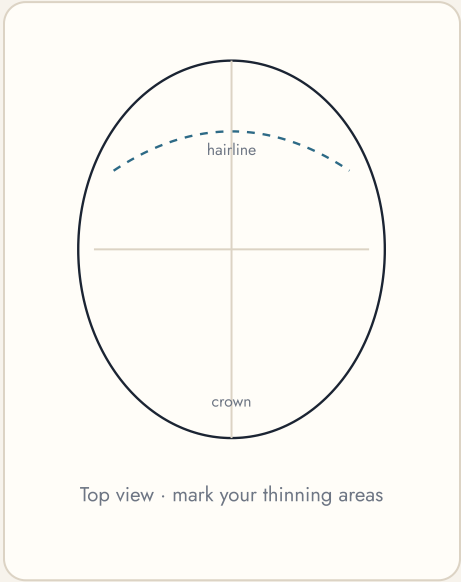

Back to the hotel

With your forehead band, neck pillow and aftercare kit.

MORNING · STOP 05

Designing my *hairline*

Sketch what you want to talk about. Your doctor draws the real line with you before surgery.

WHAT MATTERS TO ME

- ☐ A natural front line
- ☐ Filling the temples
- ☐ Density at the crown
- ☐ Keeping donor hair for later

MY NOTES

KEEP THIS RECORD

My graft *record*

Your graft count is shown live on screen, printed on a record with your name and doctor, and filmed. Copy it here for your own journal.

TOTAL GRAFTS

--	--	--	--	--

AREAS TREATED

- ☐ Hairline
- ☐ Temples
- ☐ Mid-scalp
- ☐ Crown

RECEIVED

- ☐ Printed graft record
- ☐ Surgery video
- ☐ Aftercare kit
- ☐ Forehead band & neck pillow

COMFORT

Does it *hurt*?

The scalp is numbed with local anaesthesia, and IV sedation is available under the anaesthesia team's care. Most of the day feels like pressure, not pain.

MOMENT	WHAT YOU MAY FEEL	WHAT WE DO
Numbing	A short sting	IV sedation keeps you relaxed
Surgery	Pressure, no sharp pain	Breaks, music, a lunch pause
First night	Pressure in the head	Pain reliever if needed, as prescribed
Days 1–3	Swelling at the forehead	Band, ice gel and your kit

HOW DID TODAY FEEL? (0 = NONE, 10 = A LOT)

9

10

My first *night*

Sleep semi-upright at 45° with two pillows and the neck pillow for the first 3 nights.

COLD PACK LOG

On your temples, never on the grafts. 10 minutes every hour until bedtime.

- | | | |
|-----------------------------|-----------------------------|-----------------------------|
| ☐ 18:00 | ☐ 19:00 | ☐ 20:00 |
| ☐ 21:00 | ☐ 22:00 | ☐ 23:00 |

DO

- ☐ Drink 3 litres of water a day for 5 days
- ☐ Take your medicines as prescribed
- ☐ Keep your seat belt on and avoid driving

DON'T

- ☐ Touch the grafts, or let others touch them
- ☐ Bend forward or lift heavy things
- ☐ Look down at your phone
- ☐ Alcohol, tobacco, salty or spicy food for 5 days

Normal tonight: a feeling of pressure in the head and a little pinkish discharge. **Message us:** bleeding that does not stop with gentle pressure.

A NOTE FROM YOUR DOCTOR

Dear Guest,

The service we provide is not limited to a single operation; it is a journey to open a brand-new chapter in your life. We are a team passionate about our work, paying attention to every detail with utmost care.

Our goal is not only a physical transformation, but to help you feel stronger, happier and more confident when you look in the mirror. Remember, you are not alone. We will stay in touch and be by your side every step of the way.

Thank you for trusting us with this new beginning.

With my warmest regards,

Servet Terziler

P.S. Tomorrow is your dressing day. Come to the clinic at your scheduled time and leave the donor bandage to us.
